ABOUT THE NACT

A Member-Driven Organization

The NACT is the ONLY professional, member-driven organization dedicated exclusively to the corporate treasurer. Our goal is to develop programs enabling our members to meet and exchange ideas directly with their peers. As reflected by our Board member affiliations, the NACT represents a broad range of corporate America. Our membership consists of approximately 250 treasurers (and assistant treasurers from large companies) with good size, geographic and industry diversification. Our motto is... *Treasurers Talking to Treasurers...* we enhance the exchange of best practices in treasury among our members through peer networking, conferences, career services, advocacy, regional meetings, webinars, and telediscussions.

PURPOSE

The purpose of NACT is to maintain a professional association of individuals responsible for the management of corporate treasury. NACT's operations include collecting, publishing and disseminating materials and information relevant to the management of treasury operations, conducting and sponsoring meetings and seminars, and promoting educational activities.

MISSION

As a member-driven organization, the NACT facilitates dialogue between corporate treasurers and their colleagues, opening valuable connections and introducing new approaches and better solutions. Through focused, relevant programs and activities, NACT members share ideas on a wide spectrum of corporate finance, including: corporate banking relationships, capital markets, investment opportunities, retirement plans and benefits, risk management, insurance, large, medium and small company issues, international challenges and many more.

BENEFITS OF MEMBERSHIP

Networking

Since the organization's inception, our motto, "**Treasurers Talking to Treasurers**", remains the cornerstone of the NACT. As a member of the NACT you have access to one of the most extensive resource networks available—OTHER corporate treasurers who are managing the same issues that you are facing within your company. By bringing together experts and practitioners, the NACT facilitates candid and confidential forums by which our members are able to discuss and exchange ideas.

Continuing Education

NACT's National Treasurers Conference, Fall Treasurers Conference and Regional Meetings feature prominent speakers and educational sessions designed to help Treasurers respond to and be effective agents of change in corporations like yours. Our 2017 Fall Treasurers Conference included our popular open forum discussion along with the following general session topics:

- What Financial Reform 2.0 Means for Corporate Treasurers
- LIBOR Reform
- Shareholder Returns, Share Repurchases and Dividends
- The Evolving Investment Environment and Implications for US Corporations

The theme of the 2017 National Conference was *Solving the Puzzle in 2017*. Special guest speakers included Larry Kudlow, CNBC's Senior Contributor & formerly the host of CNBC's primetime "The Kudlow Report" as well as Donald Good, formerly the Deputy Assistant Director of Operations with the Federal Bureau of Investigation's Cyber Division. The program featured updates and interactive discussions on such topics as:

- Risk Management
- Banks and Capital Markets
- Rating Agency Panel
- Retirement Plans
- Global Regulatory Changes

Advocacy

NACT officers have been active in representing treasurers before law makers and regulators to advocate for sensible financial regulations that do not unduly burden our member companies' operations. Among the areas of greatest effort are regulations of derivatives, money market funds and bond issuances potentially affected by the Volcker Rule. We have given testimony at several Congressional hearings and met with commissioners of the SEC and CFTC along with officials of the Department of the Treasury and the Federal Reserve.

MORE BENEFITS

Telediscussions and Webinars

In the spirit of our **Treasurers Talking to Treasurers** mission, frequent telediscussions and webinars provide NACT members the opportunity to discuss current, relevant topics with fellow treasurers and subject matter experts without leaving their desk. Recent topics covered during these virtual meetings include:

- Cyber Security: Top Risks and Trends for Protecting Your Assets
- Direct Lending: An Asset Class Used to Increase Returns on a Cash-Management Account
- Preparing Your Treasury for the Fallout from the New Basel III LCR Rule
- Negotiating Credit Agreements

Career Enhancement

With a host of opportunities for ongoing education and networking, NACT serves as a comprehensive resource for corporate treasury professionals, who need to be up-to-date on today's issues and anticipate tomorrow's trends.

NACT Membership Directory

The online membership directory is a networking tool that gives members access to the names of colleagues so that they may communicate with them—treasurer to treasurer. The directory is available online in a searchable format and includes listings of members sorted by name, corporate affiliation, industry, location and more.

Job Clearinghouse and Job Search Consulting

The NACT Job Clearinghouse is the premier resource for job networking for senior treasury personnel and for providing assistance to members in transition. The Job Clearinghouse works actively with the general NACT membership, recruiters and other professional organizations to assist members seeking treasury positions nationwide.

Website

The NACT website (www.nact.org) is designed to keep members informed of the latest events and activities of the association. Online you will find a listing of upcoming meetings, including city and regional events, links to our sponsors' websites, and relevant articles of interest to our membership. In the Members Only section of the website, you are able to view presentations from meetings and telediscussions, and utilize the searchable membership directory.
